DUBLAB SIGNATURE EVENTS

dublab signature events are an integral component to our mission and our programming. These events often feature talks, multimedia installations and live performances.

Here are some examples:

Tonalism

Tonalism is an all night ambient happening where visitors are encouraged to bring pillows, cushions and sleeping bags, lay down and listen. The event features live performances and DJ sets in an environment transformed by projections, installations and various multimedia elements.

Sleepless

Developed in collaboration with The Music Center, Sleepless broke barriers by bringing a highly conceptual, late-night interdisciplinary series to the Dorothy Chandler Pavilion, transforming the home of the LA Opera into a place for exploration and discovery.
